Expand your market reach

Rapyd Collect enables businesses who want to create consistent local commerce and checkout experiences.

Rapyd Collect is a global payment acceptance platform that helps businesses reach billions of consumers who prefer to transact with local payment methods. Unlike most legacy payment acceptance products, Rapyd

Collect provides an extraordinary breadth of payment methods globally and then surround it with business services that help lower the barriers of doing business around the world. Businesses can now focus on growing new markets rather than building their payments infrastructure.

**Rapyd powers
your local
payments
strategy globally**

Increase your global conversions with local payment acceptance and checkout experiences by accepting local ewallets, bank payments, instant transfers, cash, and debit cards along side your existing card processing implementations.
